

UC DAVIS HUMANITIES INSTITUTE

# BOOK CHATS

Historian Sudipta Sen unravels the story of the Ganges, from the communities that arose on its banks to merchants that navigated its waters, and how it came to occupy a center-stage in the history and culture of the subcontinent. Weaving together geography, environmental politics, and religious history, Sen's lavishly illustrated volume is a remarkable portrait of one of the world's largest and most densely populated river basins.
